Dear Professor Balteanu:

It was a great delight to have news from you and your family, and to know that things have been going as well as could be expected with all the turmoil of war. Mrs. Schwentker and I have wished often that we could return to Roumania now to see the country and our many friends. The two years we spent there were most enjoyable. Mrs. Costrec visited us when she came to the Nursing Congress and we had from her news of you all.

I received appointment as Professor of Pediatrics at this University in July 1946 shortly after I was discharged from the Navy. During my stay in the Navy, I served in the Pacific area against the Japanese.

We now have three children, Fritz who is 13, Anne 11, and Ned 7.

Is there any way in which we could help you? I do not know whether supplies can be received in Roumania, but shall be glad to assist if I am able to do so.

Mrs. Schwentker asked me to send you her best wishes and her love to Mrs. Balteanu.

Sincerely yours,

Francis F. Schwentker, M. D.

Dear Dr. Balteanu:

I was glad to know of your arrival in London and to know that you have already seen Dr. Martin.

The Foundation would be able to pay for lessons in English, but I suggest that instead of going to Berlitz school, you find some private teacher who will be able to give you more individual attention. I think you will probably find that you will advance more rapidly if you can find the right teacher and that it would be less expensive for you than to go to Berlitz School.

Yours sincerely,

Howard H. Barton.
